README
PM PRD 11.1
Data Collection and Processing Software
(c) 2004-2006 Polimaster
All rights reserved

=====

1. Important Note

Further information can be found in the PM PRD Software Guide_e.pfd or on the internet under www.polimaster.us.

2. Installation

To install the "PM PRD Data Collection and Processing Software" and related documentation please run autorun.exe from the DISK1 folder and follow installations instructions.

After installation software can be launched from the start menu.

3. Requirements

This version of software requires Microsoft® Windows® 98 or later. Also installing PM PRD software to a hard drive other than your system or boot drive (usually C:), you will still need to have at least 20-30 MB free on your hard drive to proceed with installation. See the "PM PRD Software Guide" for details.

4. Reports

"PM PRD Data Collection and Processing Software" is sophisticated software providing various advanced tools and features. Although we have thoroughly tested the software, a few bugs may be present. In order to fix them please report detailed description of the error to support@polimaster.us.

Sincerely Yours,

Polimaster team.
